

BM Tech: Passive Fire Protection Experts.

BM Tech is a passive fire protection consultancy. Our expertise stems from years of certifying, specifying, and inspecting fire-rated systems across New Zealand and Australia.

Our technical team can assist with:

- Passive fire design and specification (PS2 Author)
- Design reviews for new-build and remediation projects
- Certification of variations at both design and construction stages
- Preliminary and comprehensive site surveys to identify and quantify passive fire defects
- Construction monitoring (PS4 Author)
- Expert witness services for legal cases
- Project-specific solutions
- Passive fire seminars.
